

**GREY GROUP**

1a. What is the capacity of each container?

Container A

Container B

What is the volume of the liquid in each container?

5 1/2

1b. What is the capacity of each container?

Container A

Container B

What is the volume of the liquid in each container?

5 1/2

2a. Calculate the volume of the shape.

1 cube = 1cm<sup>3</sup>

Width	Height	Length	Volume (cm <sup>3</sup> )

5 1/2

2b. Calculate the volume of the shape.

1 cube = 1cm<sup>3</sup>

Width	Height	Length	Volume (cm <sup>3</sup> )

5 1/2

3a. Mya says the volume is 600ml<sup>3</sup>.

True or false?

5 1/2

3b. Archie says the volume is 12cm<sup>3</sup>.

True or false?

5 1/2

## GREEN GROUP

4a. What is the capacity of each container?

Container A

Container B

What is the volume of the liquid in each container?

5 VP

4b. What is the capacity of each container?

Container A

Container B

What is the volume of the liquid in each container?

5 VP

5a. Calculate the volume of the shape.

1 cube =  $1\text{cm}^3$

Width	Height	Length	Volume ( $\text{cm}^3$ )

5 VP

5b. Calculate the volume of the shape.

1 cube =  $1\text{cm}^3$

Width	Height	Length	Volume ( $\text{cm}^3$ )

5 VP

6a. Sara says the volume is  $180\text{ml}^3$ .

True or false?

5 VP

6b. Eddie says the volume is  $21\text{cm}^3$

True or false?

5 VP

## GOLD GROUP

7a. What is the capacity of each container?

Container A

Container B

What is the volume of the liquid in each container?

2 VP

7b. What is the capacity of each container?

Container A

Container B

What is the volume of the liquid in each container?

2 VP

8a. Calculate the volume of the shape.

1 cube = 1cm<sup>3</sup>

Width	Height	Length	Volume (cm <sup>3</sup> )

2 VP

8b. Calculate the volume of the shape.

1 cube = 1cm<sup>3</sup>

Width	Height	Length	Volume (cm <sup>3</sup> )

2 VP

9a. Deepal says the volume is 70ml.

True or false?

2 VP

9b. Amelia says the volume is 40cm<sup>3</sup>.

True or false?

2 VP
