

Benwick Primary School – Topic Menu - ROBINS

Design & Technology

Use your recycling box at home to make a model. Think about how you can join pieces together and decorate it. Take a photo to share with the class.

Science

Floating & Sinking experiment
Use the kitchen/bathroom sink. Find some items around the house. Predict which will float in water and which will sink. Use your exercise book to record your predictions – test them... were you correct?

History

Toys in the past. Can you find out about toys in the past, what toys did people at home play with when they were small? Can you draw a picture of old toys? How were they different or similar to your toys now? Record in your exercise book.

Art

Can you see any spring flowers in your garden or around your home? Do some observational drawing in pencil (looking really closely), then try again in paint, crayon, felt tip etc!

Geography

Can you draw a map of your garden or a room in your house and label all the different parts?

PE

Can you make an obstacle course in your garden at home. Ask someone to time you, can you get faster and faster? Remember to be safe and ask an adult to be with you.
