Date: 01.06.20

LO: To be able to read o'clock

Success Criteria

- ✓ I can use an analogue clock to read o'clock and half past timings
- ✓ I can explain my reasoning when using an analogue clock to read o'clock and half past timings

How many numbers are on a clock face?

Create your own clock.
Make sure it includes:

Numbers
Minute hand
Hour hand

What do the numbers on the clock mean?

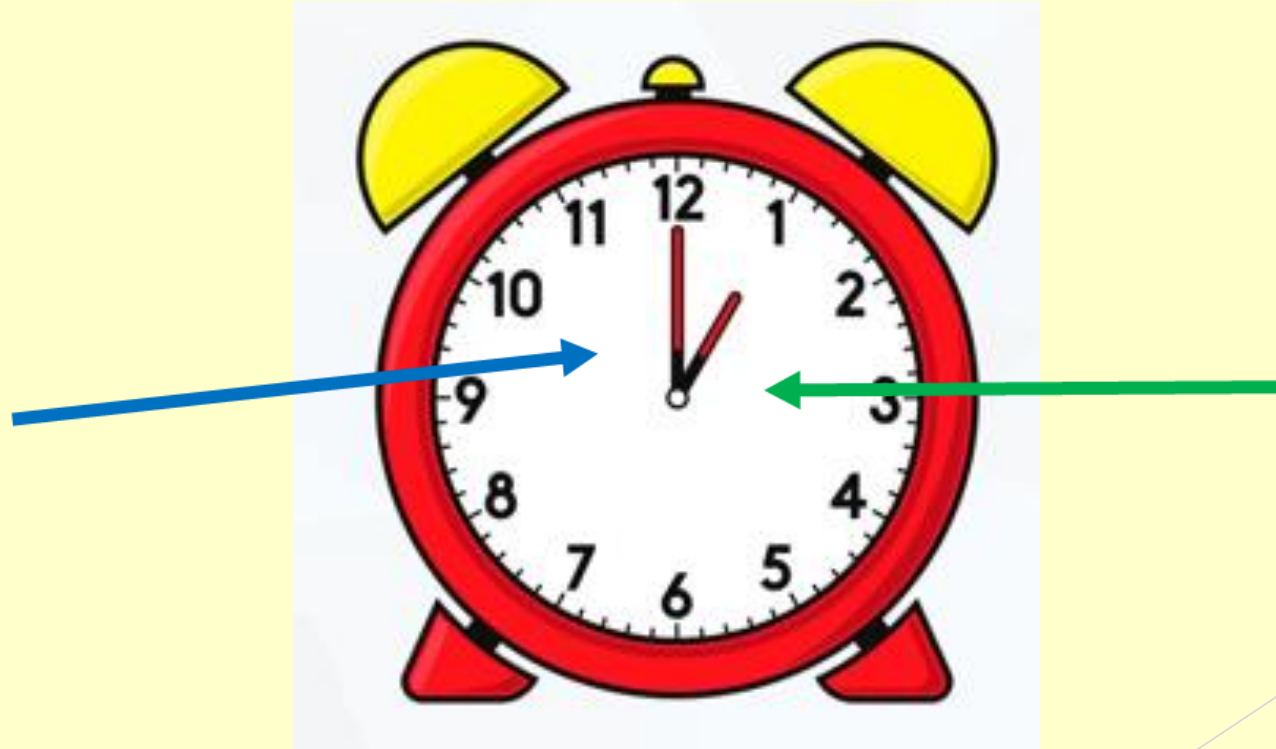

What do the hands on the clock mean?

What are the different hands on the clock?

12 numbers are shown on the clock, does this mean there's 12 hours in a day?
How do we know?

What do the big hands and small hands mean on a clock?

The big hand is the **minute** hand. It tells us how many minutes past or to the next hour.

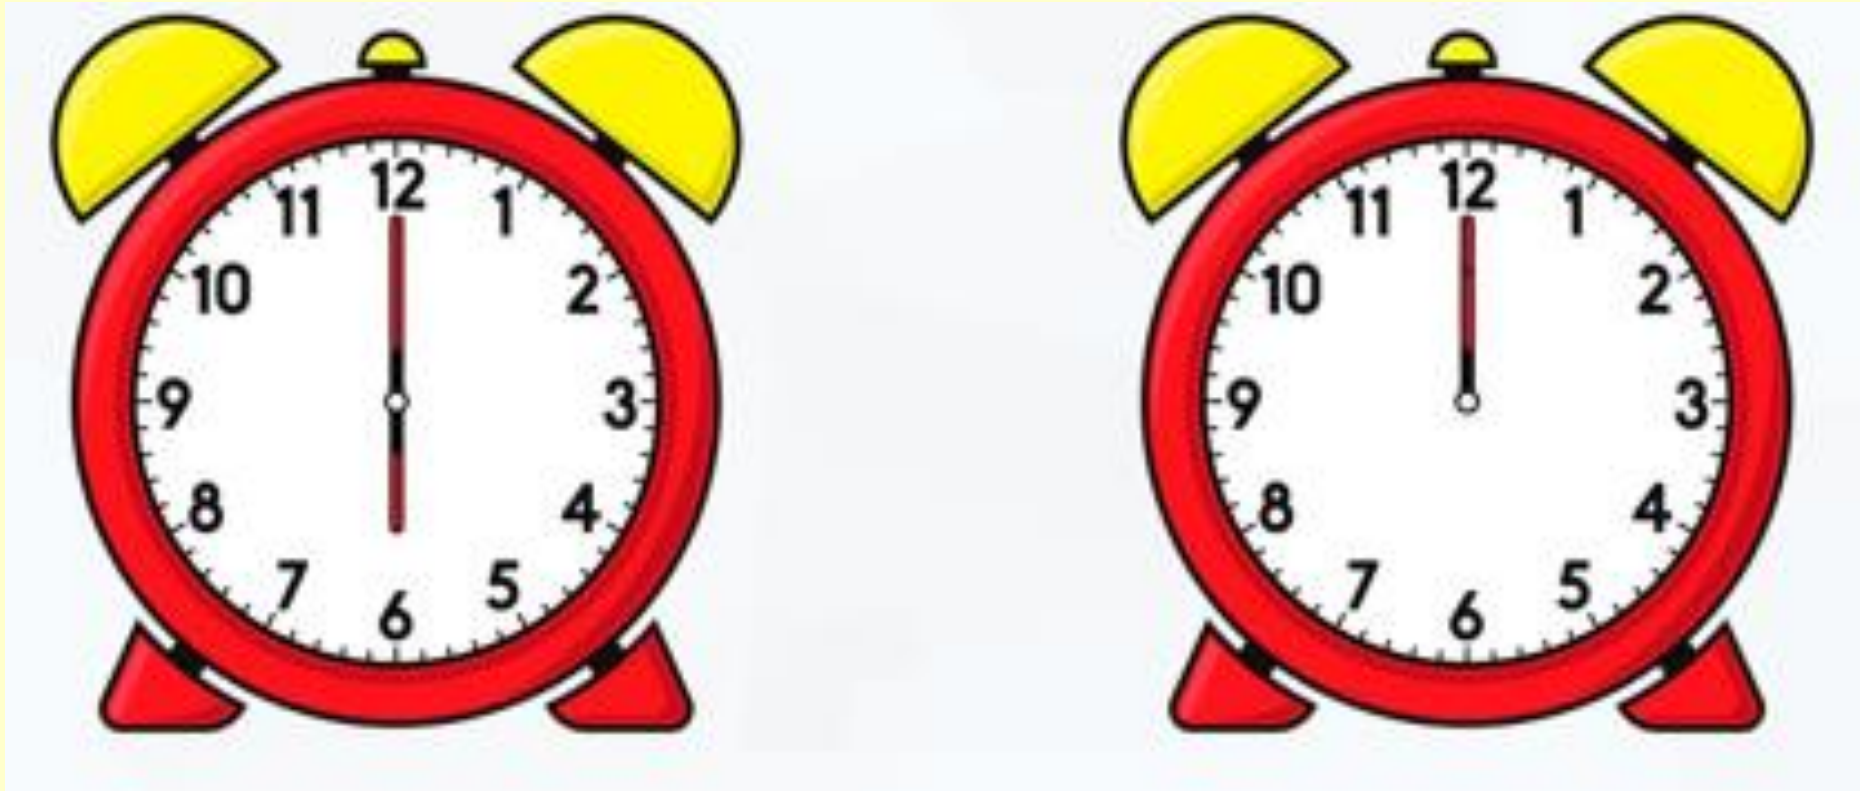

The small hand is the **hour** hand. This tells us which hour it is.

For o'clock times, the minute hand will always be on _____.

What will happen to the hour hand and minute hand when it moves to the next hour?

What time is shown?

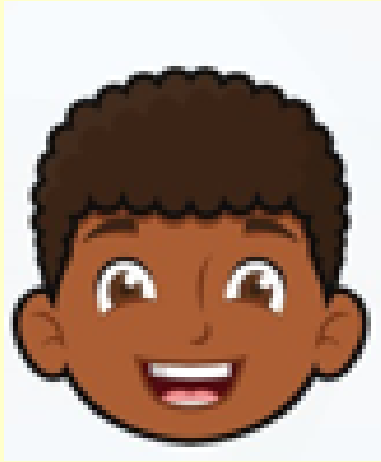

Challenge

If it is 4 o'clock the minute hand is point at _____
and the hour hand is point at _____.

If it is 9 o'clock the hour hand is point at _____
and the minute hand is point at _____.

Can you create your own time sentences?

Reflection

I have shown
2 o'clock on the
clock.

What mistake has Dom made?

Time

LO: To be able to read o'clock and half past

Success Criteria

- ✓ I can use an analogue clock to read o'clock and half past timings
- ✓ I can explain my reasoning when using an analogue clock to read o'clock and half past timings

Recap:

What do the big hands and small hands mean on a clock?

The big hand is the **minute** hand. It tells us how many minutes past or to the next hour.

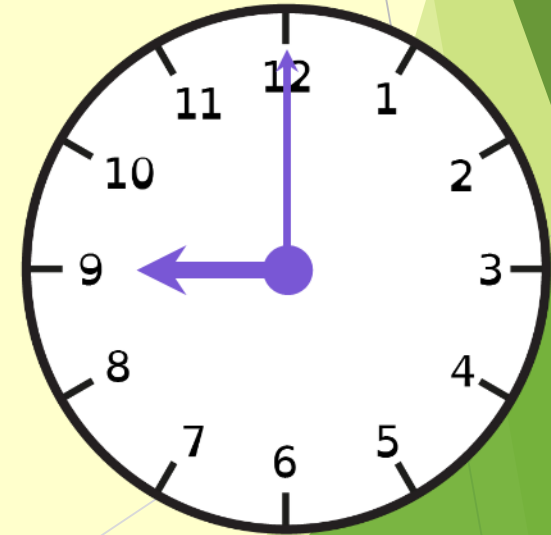

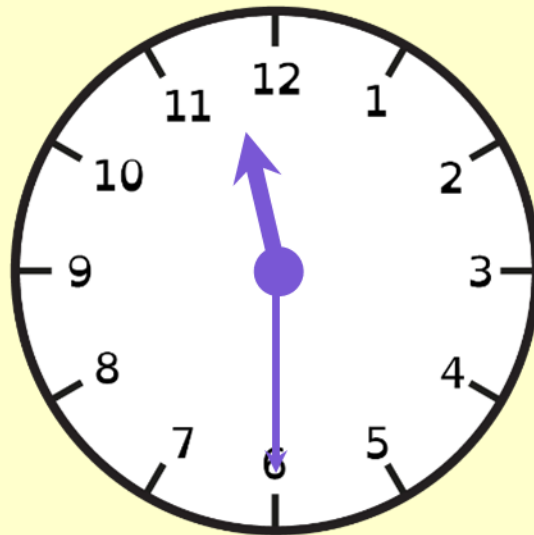

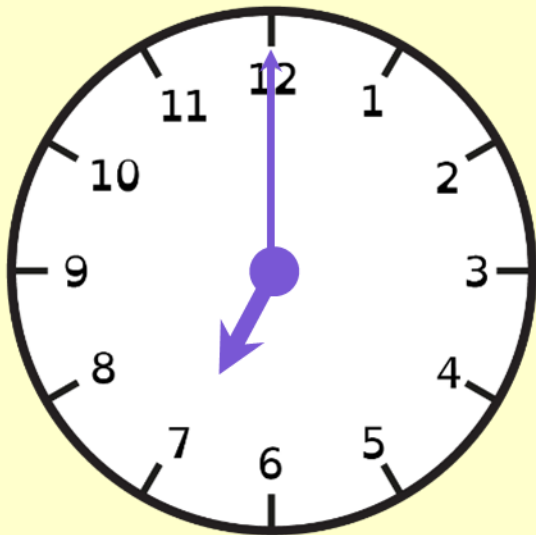

The small hand is the **hour** hand. This tells us which hour it is.

Starter

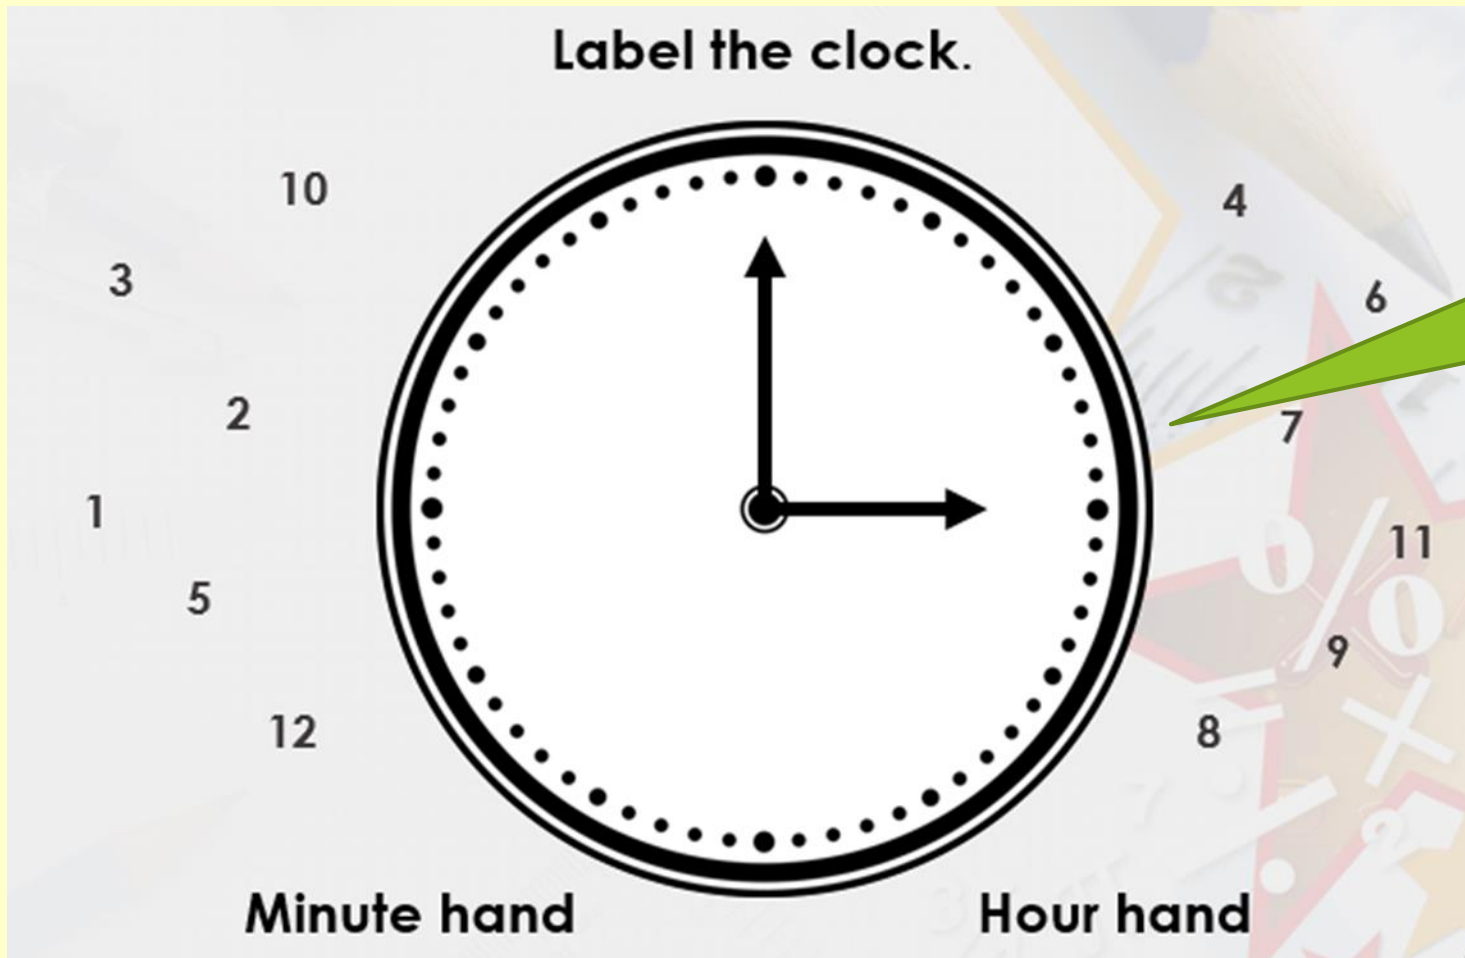

Can you use your time skills
to explain to a grown up which
clock doesn't belong.
Remember to use I know that
statements.
I know that it is... because ...

Which one doesn't belong?

Explain your answer.

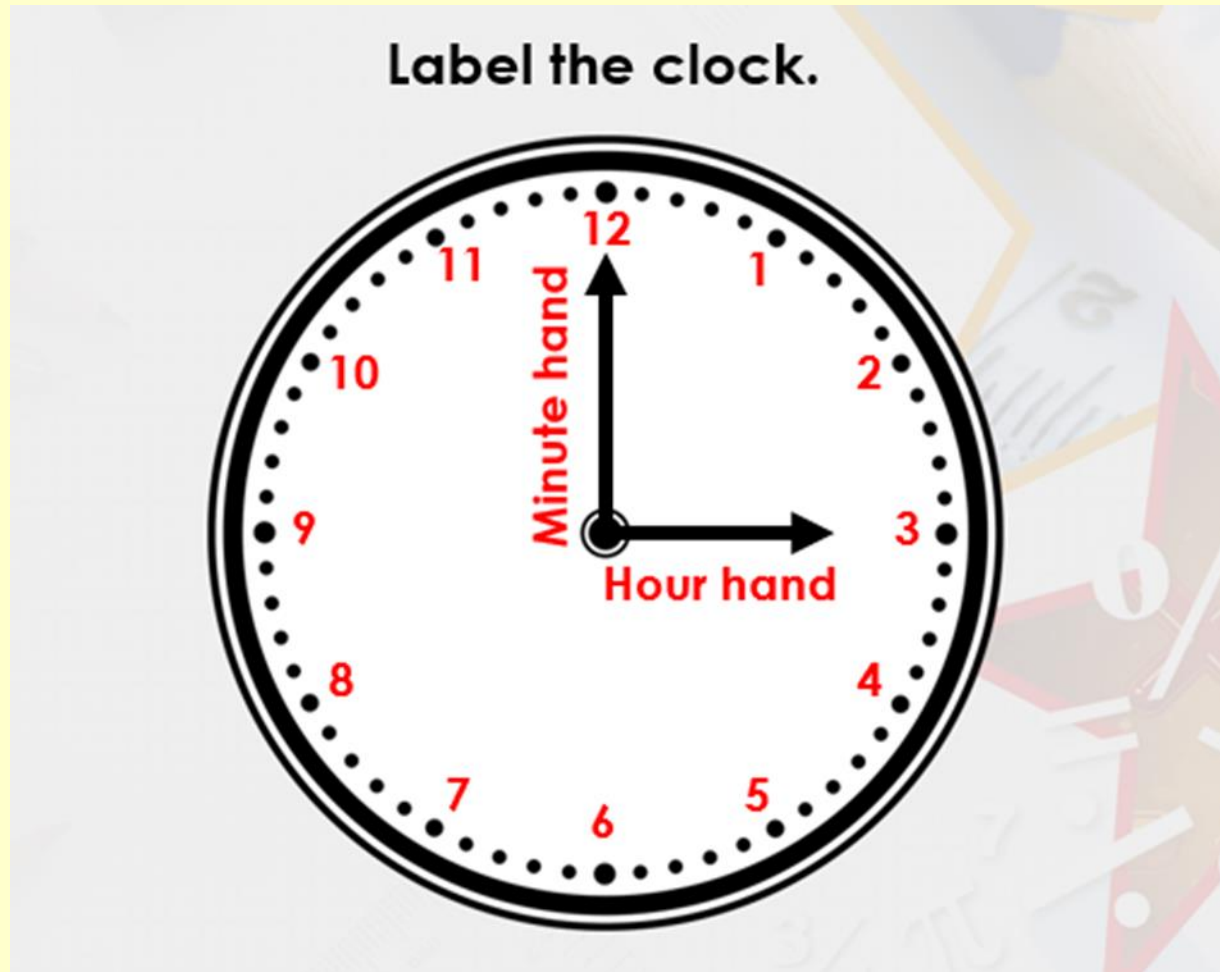

Descriptive teaching

Can you point to where
the numbers will go?

Which hand is which?

Descriptive teaching

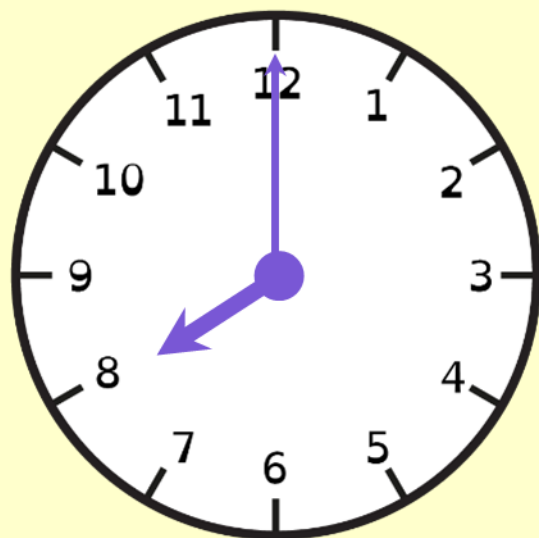

Descriptive teaching

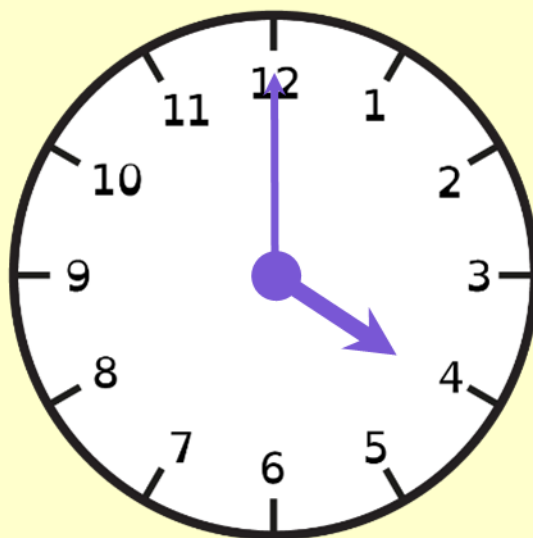

Match each clock face to its description.

Can you match
the times to
the clocks?

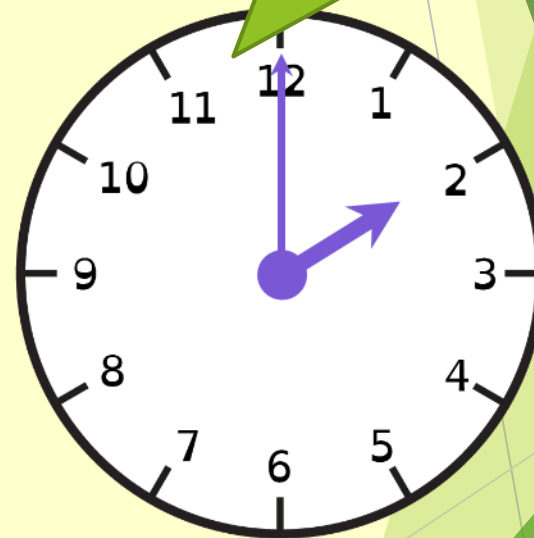

Where does
the long hand
go when it is
O'clock?

2 o'clock

8 o'clock

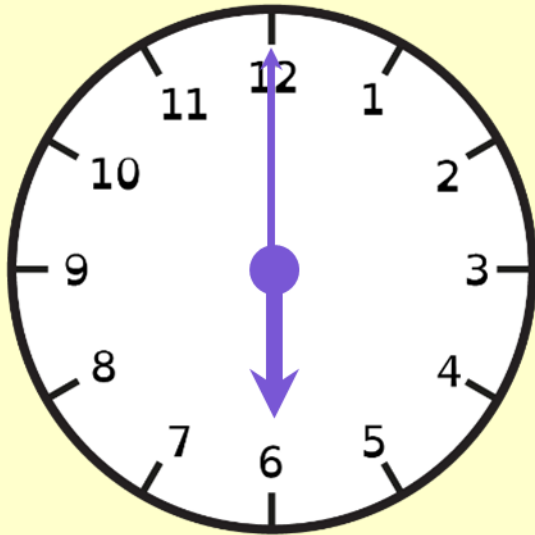

4 o'clock

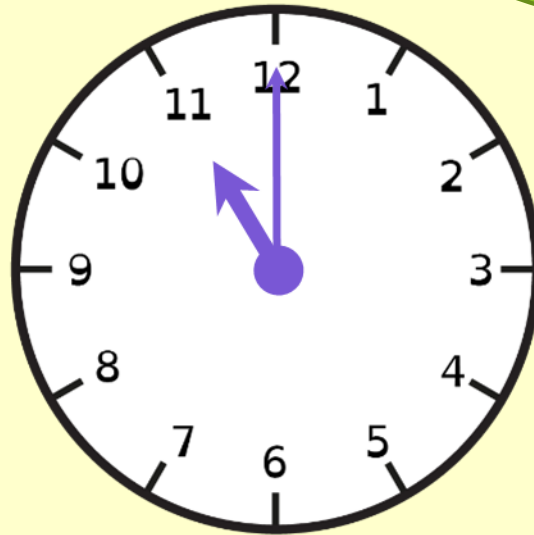

Descriptive teaching

Match each clock face to its description.

Can you match the
times and the clocks?

1 o'clock

6 o'clock

11 o'clock

Descriptive teaching

For half past times, the minute hand will always be on _____.

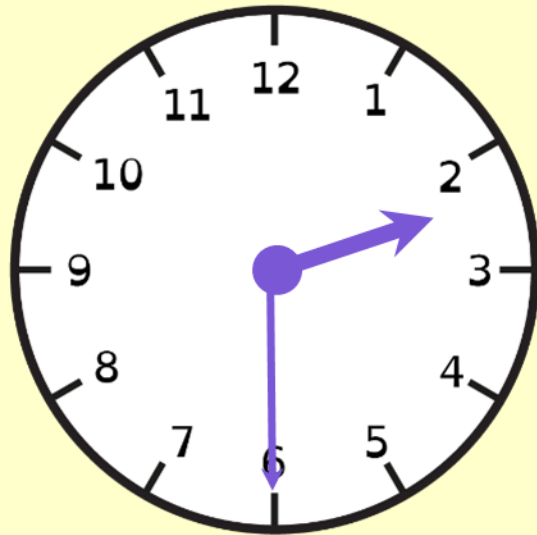

What will happen to the hour hand?

It will go half way between the current hour and the next hour.

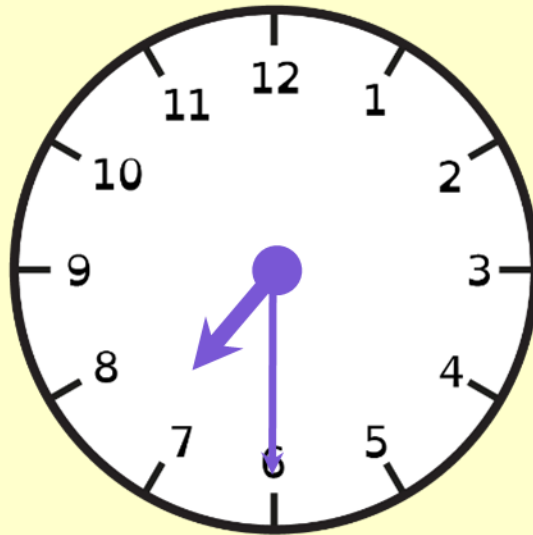

Descriptive doing

Match each clock face to its description.

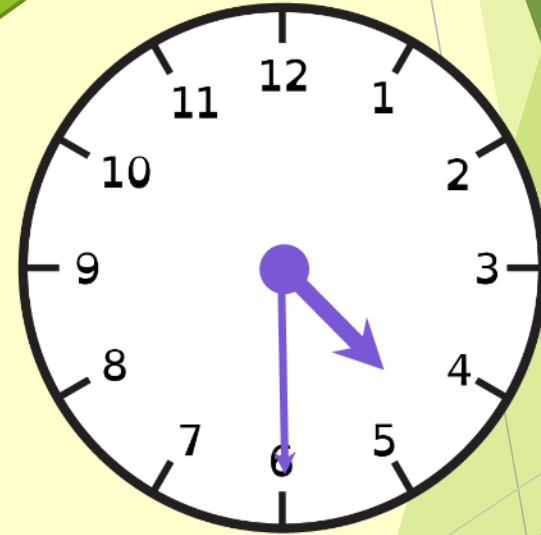

Where does the long hand (minute hand) go when it is half past?

half past 7

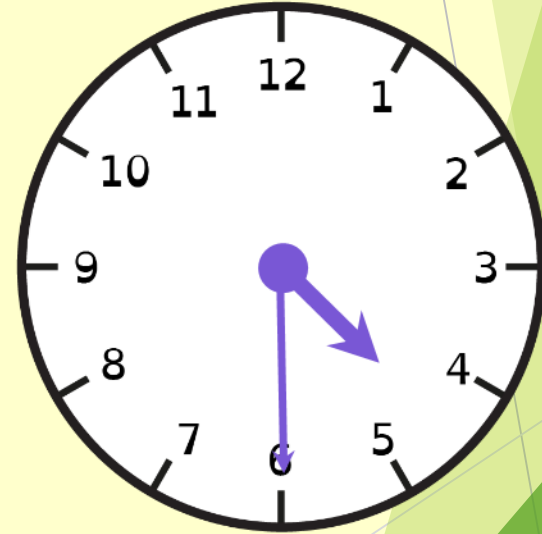

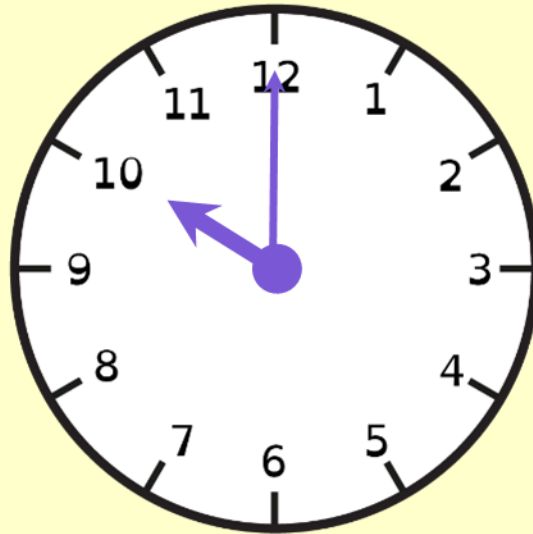

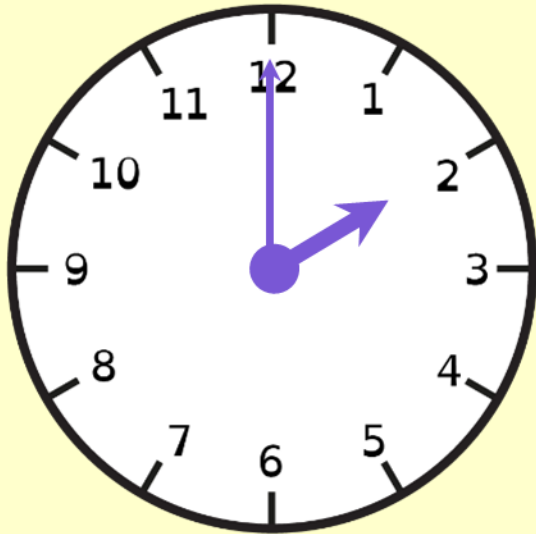

half past 4

half past 2

Reflective teaching

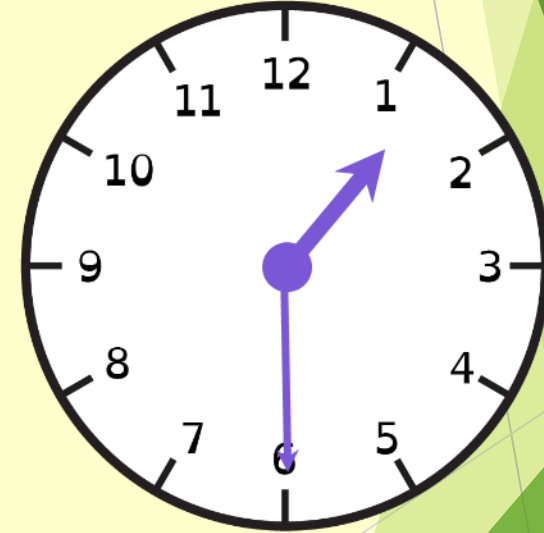

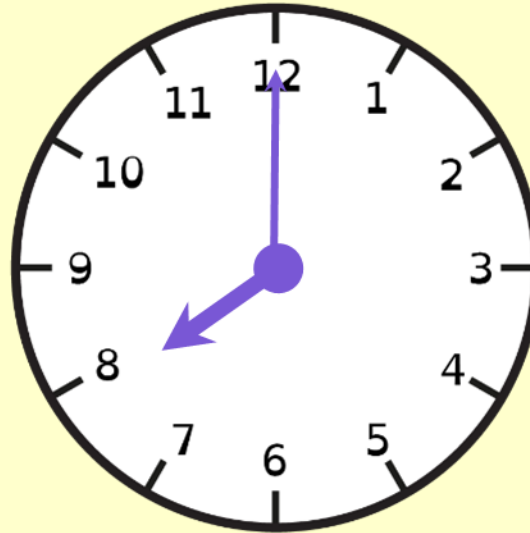

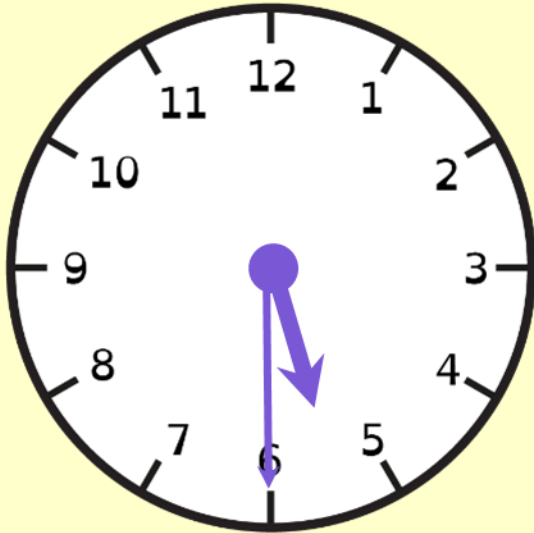

Which o'clock or half past time is shown on each of the clock faces below?

Reflective doing

Write the times that each clock face shows

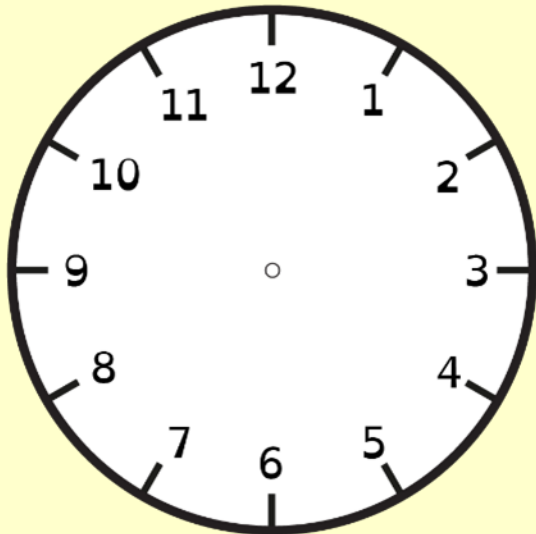

Which o'clock or half past time is shown on each of the clock faces below?

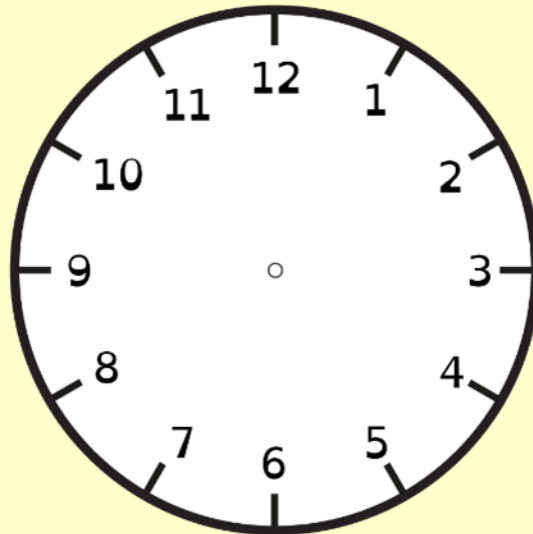

Reflective doing

Can you draw the hour and minute hand on the clock correctly to show the times?

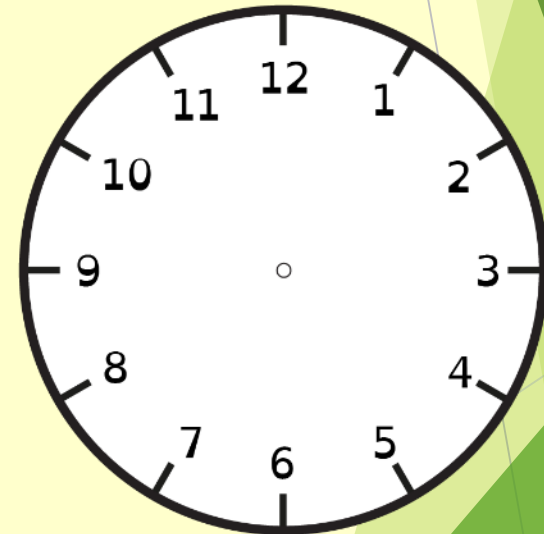

Referring to the times given below, draw hands on the clocks faces shown.

6 o'clock

half past 3

half past 9

Challenges

The following slides are questions for you to work through independently. These are reasoning and problem solving question so if it says EXPLAIN you need to write how you know the answer.

There are 3 sets of work - Green (the easiest), Orange and Red(the hardest). Choose one set you feel most comfortable with.

You could challenge yourself by completing more than one challenge!

Challenge

1a. Match the clock to the time and the most likely event.

Half past 8

Half past 6

6 o'clock

Going to
school

Having
lunch

Going
home

2 PS

2a. Match the clock to the time and the most likely event.

Half past 8

Half past 6

6 o'clock

Having
dinner

Having
lunch

Starting
school

2 PS

Challenge

2a. Jason is trying to tell the time.

It is 6 past 8.

Is Jason correct? How do you know?

2 R

2b. Ellie is trying to tell the time.

It's half past 6.

Is Ellie correct? How do you know?

2 R

Challenge

3a. The hour hand has fallen off this clock.
Sam says:

It's half past 8. So the hour hand would be pointing at the 8.

Is Sam right? Explain how you know.

2 R

3b. The hour hand has fallen off this clock.
Nikki says:

It's 6 o'clock. That means the hour hand would be pointing at 12.

Is Nikki right? Explain how you know.

2 R

Challenge

4a. Match the clocks to the time and the most likely event.

Half past 8

Half past 6

12 o'clock

Going to
school

Having
lunch

Going
home

2 PS

4b. Match the clocks to the time and the most likely event.

Half past 3

9 o'clock

6 o'clock

Start of
school

Having
lunch

Going
home

Challenge

5a. Dustin is trying to tell the time.

It is between 6 o'clock
and 7 o'clock.

Is Dustin right? How do you know?

2 R

5b. Millie is trying to tell the time.

It's 6 o'clock.

Is Millie right? How do you know?

2 R

Challenge

6a. The hands have fallen off this clock.
Lucas says:

It's 4 o'clock so the
minute hand should
be pointing at the 12.

Is Lucas right? Explain how you know.

2 R

6b. The hands have fallen off this clock.
Aqba says:

It's 12 o'clock so the
hands should both be
pointing to the same
place.

Is Aqba right? Explain how you know.

2 R

Challenge

7a. Match the clock to the time and the most likely event.

12 o'clock

Half past 3

6 o'clock

Having
supper

Having
lunch

Going
home

2 PS

7b. Match the clock to the time and the most likely event.

Half past 8

Challenge

8a. Steve is trying to tell the time.

It's 6 past 6.

Is Steve right? How do you know?

2 R

8b. Macey is trying to tell the time.

It must be midnight.

Is Macey right? How do you know?

2 R

Challenge

9a. The minute hand has fallen off this clock. Kate says:

The minute hand was probably pointing up.

Is Kate right? Explain how you know.

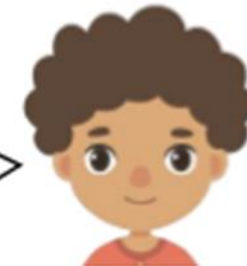

2 R

9b. The minute hand has fallen off this clock. Kevin says:

The minute hand was probably pointing down.

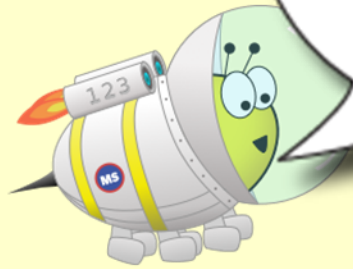

Is Kevin right? Explain how you know.

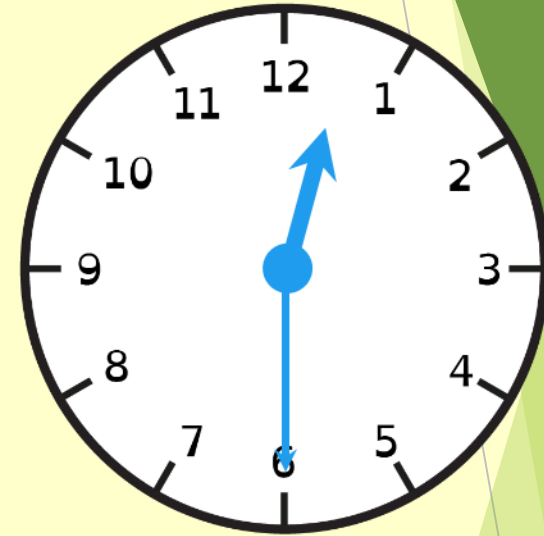

2 R

Reflection Time

The clock shows
6 o'clock.

Is Astrobee's statement true or false?
Explain your answer.

Time

03.06.20

Date: 03.06.20

LO: To be able to read quarter past and quarter to timings

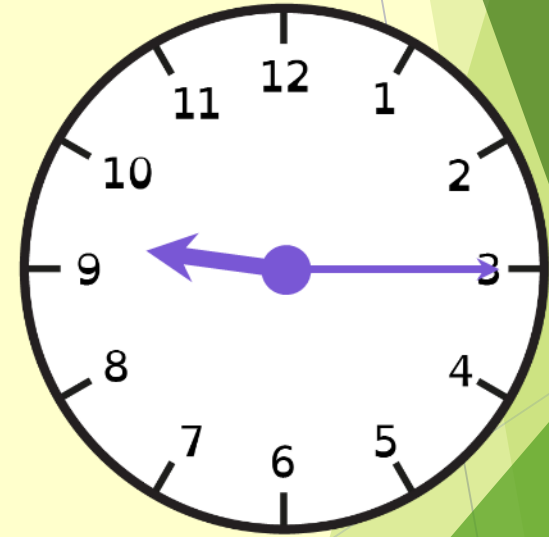

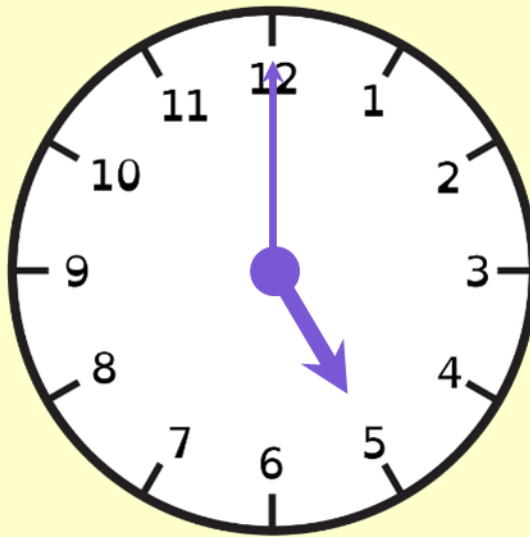

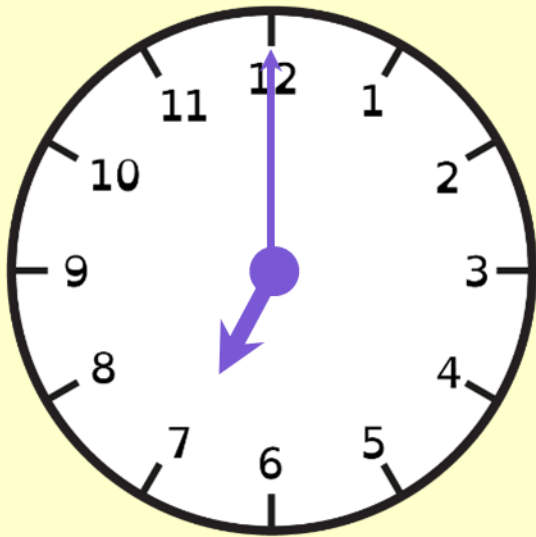

Success Criteria

- ✓ I can use an analogue clock to read quarter past and quarter to timings
- ✓ I can explain my reasoning when using an analogue clock to read quarter past and quarter to timings

Starter

Which one doesn't belong?

Explain your answer.

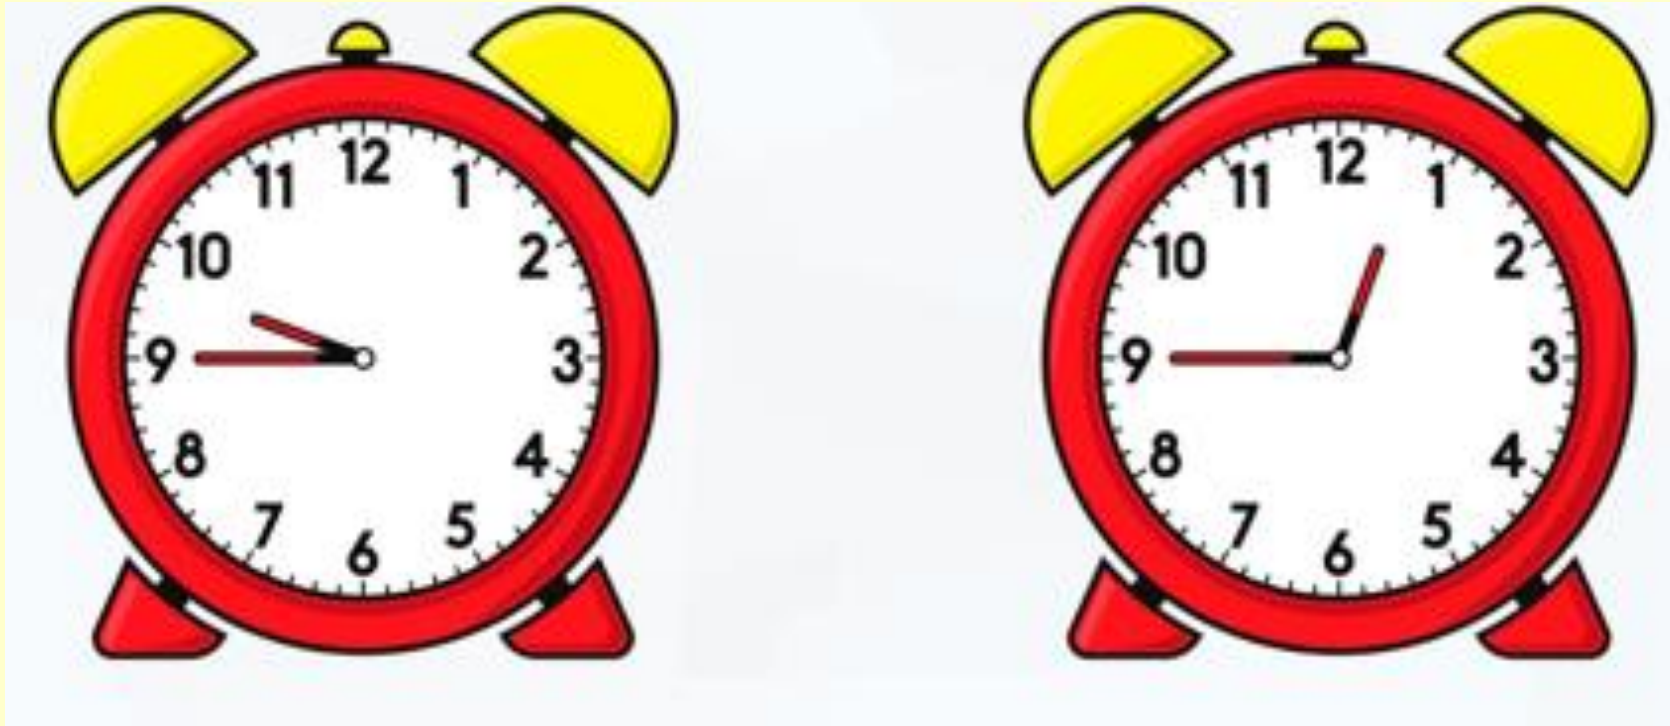

Descriptive doing

What time is shown?

Descriptive doing

What time is shown?

Descriptive teaching

It is quarter to 9 so the minute hand should be on 3 and the hour hand should be nearer 8 than 9.

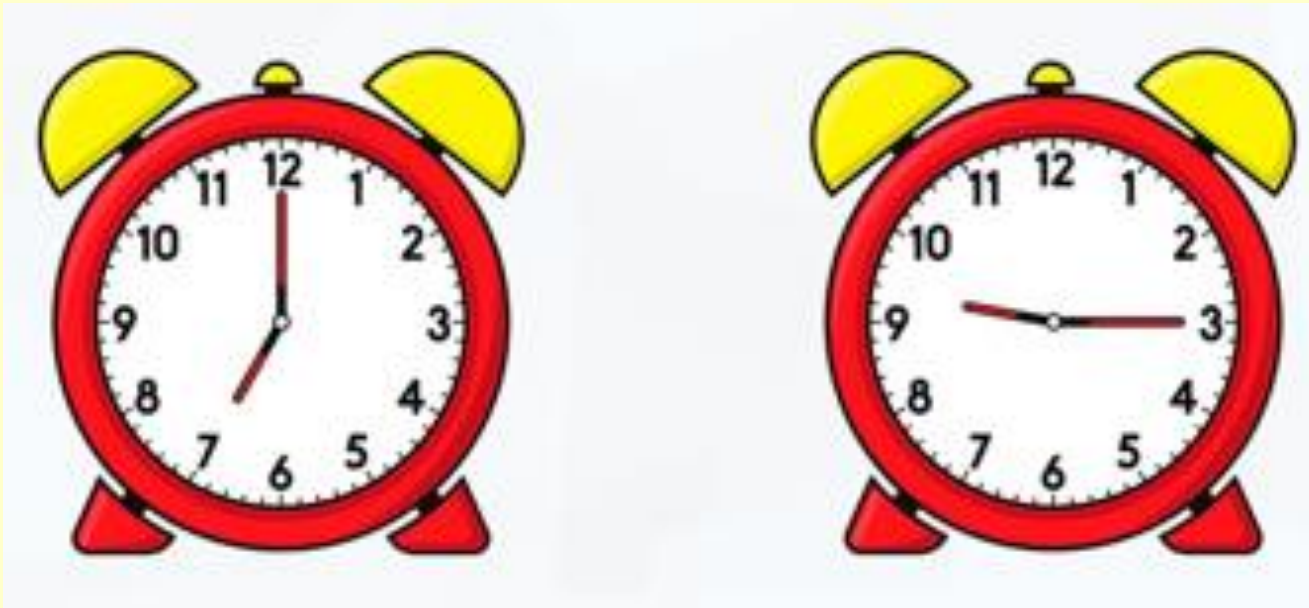

Do you agree with Sue?
Explain your answer.

Descriptive teaching

The time is half past a particular hour.

The time is between 7 o'clock and quarter past 9.

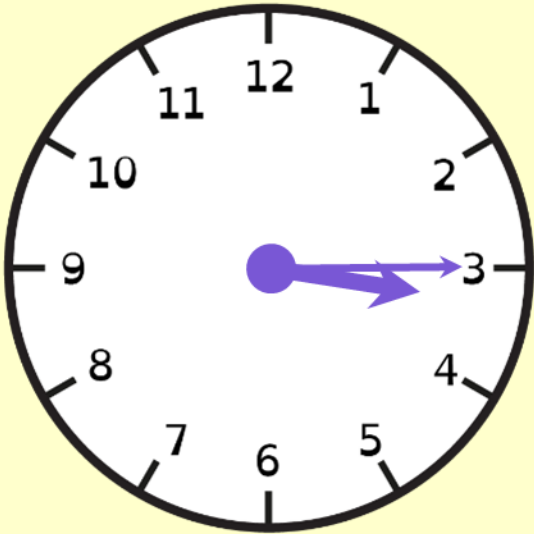

What could the time be?

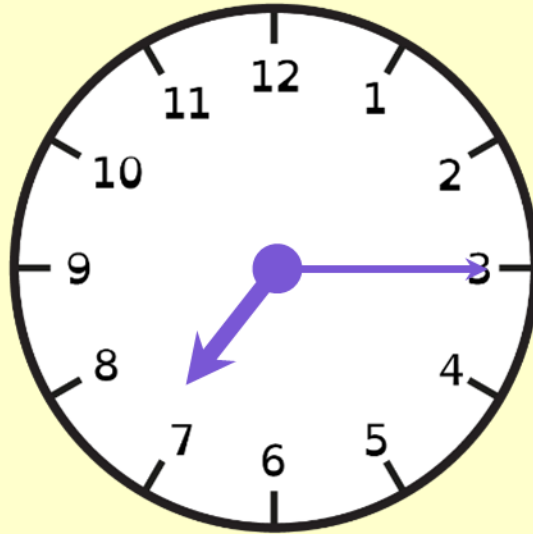

Reflective teaching

Activity 1:

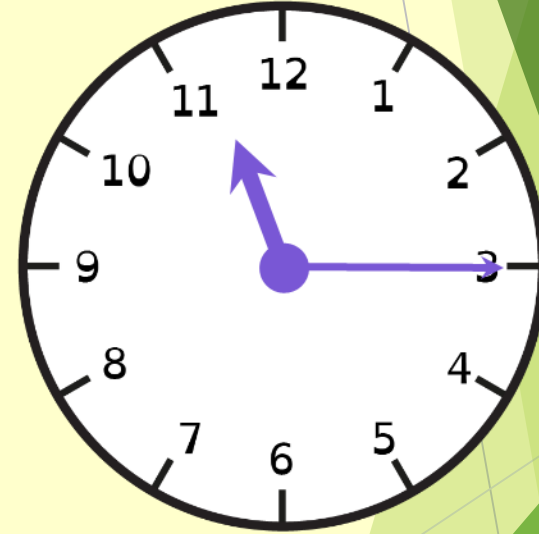

Match each clock face to its description.

quarter past 7

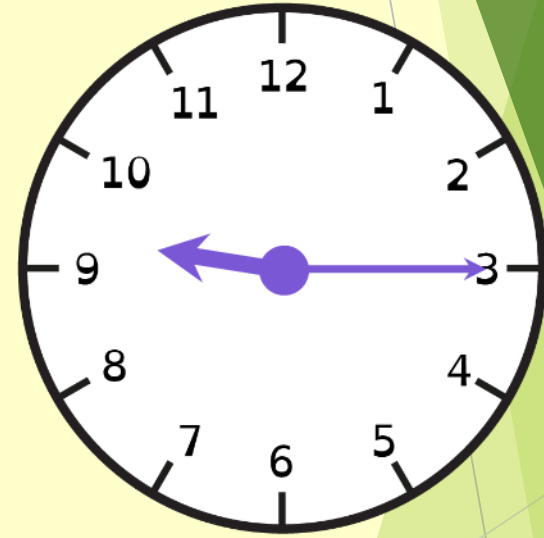

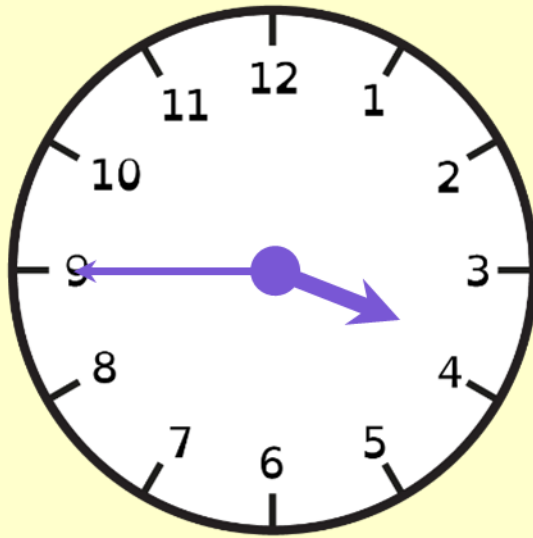

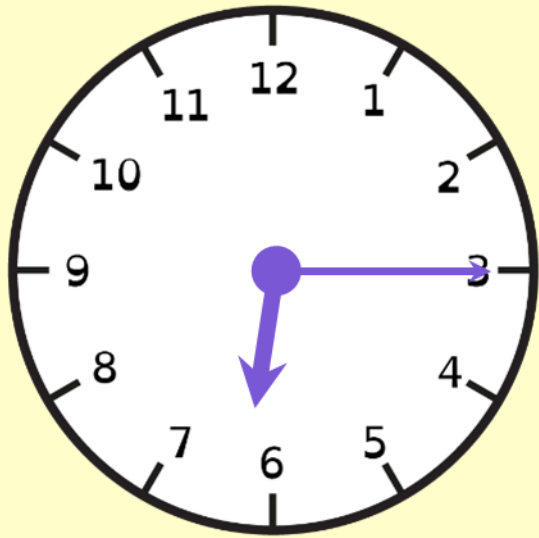

quarter past 11

quarter past 3

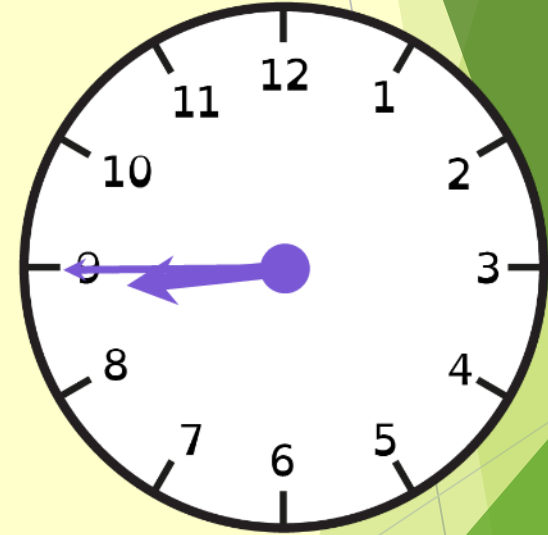

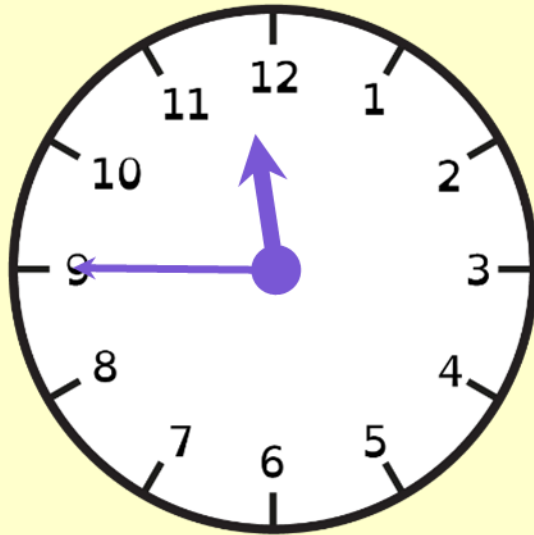

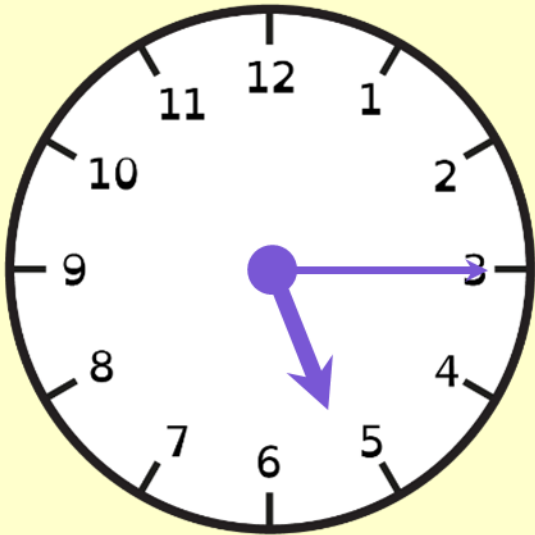

Reflective doing

Which quarter past or quarter to time is shown on each of the clock faces below?

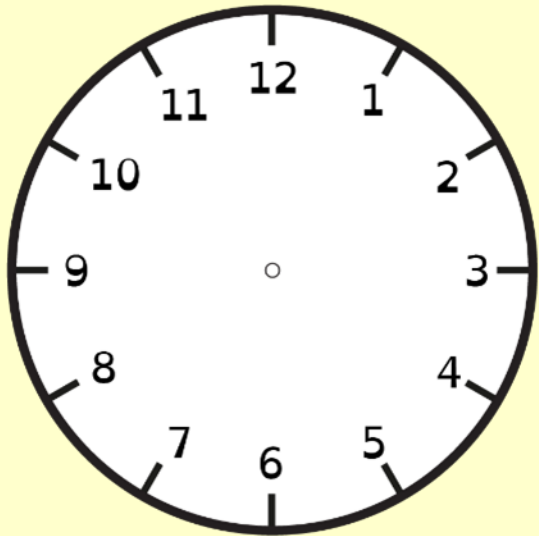

Reflective doing

Which quarter past or quarter to time is shown on each of the clock faces below?

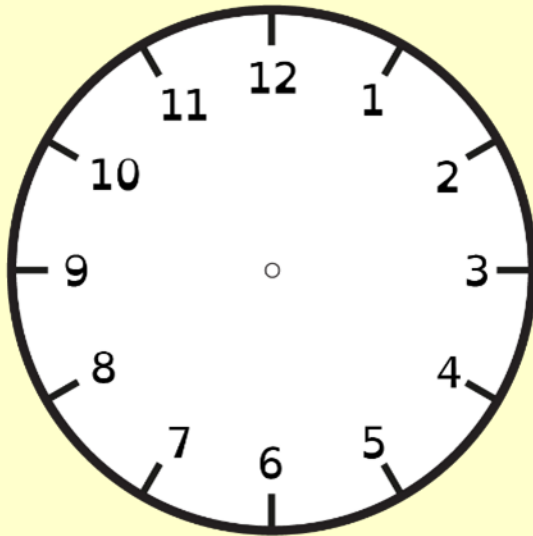

Reflective doing

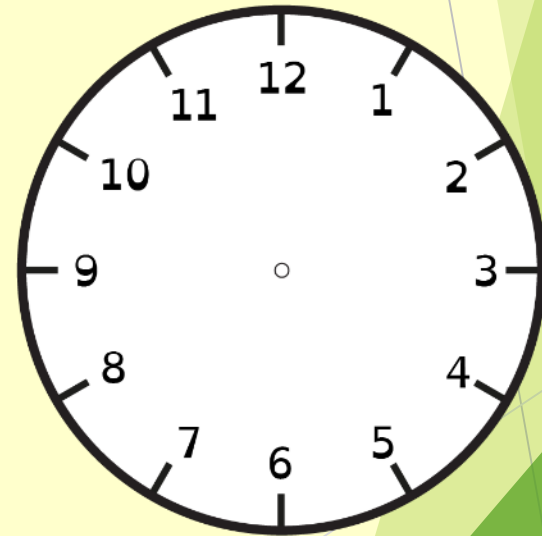

Referring to the times given below, draw hands on the clocks faces shown.

quarter past 5

quarter to 10

quarter to 1

Challenge

1. Look at the clocks below. Use to and past to fill in the blanks.

A. The time is quarter 7.

B. The time is quarter 6.

VF
HW/Ed

2. Draw the minute hands to complete the clock patterns adding 15 minutes more each time.

A.

Quarter past 2

Half past 2

Quarter to 3
