## AREA - DAY 1

## LO:I can compare the area of rectilinear shapes

A rectilinear shape is a shape whose sides all meet at a right angle.

## Fluency

LO:I can compare the area of rectilinear shapes

Starter:
Which one doesn't belong?

Explain your answer.

## Fluency

LO:I can compare the area of rectilinear shapes

## Starter:

Which one doesn't belong?

D doesn't belong as it is the only letter which has an area of ten squares.
Whereas $\mathrm{I}, \mathrm{C}$ and F each have an area of nine squares.

## Fluency

## ACTIVITY 1

Put the shapes below in order from largest to smallest.

Explain your answer.

## Fluency

Put the shapes below in order from largest to smallest.

D has the largest area as it is made up of 12 whole squares and two half squares totalling 13 squares. C is the second largest with an area of 8 squares. A has the third largest area with 6 squares, and B has the smallest area, made up of six half squares totalling 3 squares.

## Fluency

ACTIVITY 2

Put the shapes below in order from largest to smallest.

Explain your answer.

## Fluency

LO:I can compare the area of rectilinear shapes

Put the shapes below in order from largest to smallest.

D has the largest area as it is made up of 13 whole squares and four half squares totalling 15 squares. A is the second largest with an area of 12 squares. C has the third largest area with 11 squares, and B has the smallest area, made up of eight half squares totalling 4 squares.

## Fluency

Activity 3:

a) Shade in squares to make a smaller rectilinear shape than the purple shape shown above - it must be made up of a minimum of eight squares.
b) Create a rectilinear shape that is equal to the purple shape shown above, but is different to it.

LO:I can compare the area of rectilinear shapes

## Fluency

Activity 3 :

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  | a |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

a) Shade in squares to make a smaller rectilinear shape than the purple shape shown above - it must be made up of a minimum of eight squares. Example
b) Create a rectilinear shape that is equal to the purple shape shown above, but is different to it.

LO:I can compare the area of rectilinear shapes

## Fluency

LO:I can compare the area of rectilinear shapes

Activity 3 :

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  | a |  |  |  |  |  | b |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

a) Shade in squares to make a smaller rectilinear shape than the purple shape shown above - it must be made up of a minimum of eight squares. Example
b) Create a rectilinear shape that is equal to the purple shape shown above, but is different to it. Example

## Problem Solving

LO:I can compare the area of rectilinear shapes

Look at the shapes below.

a) What is happening in each step?
b) What would the next shape look like?

## Problem Solving

LO:I can compare the area of rectilinear shapes

Look at the shapes below.

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

a) Each shape increases in area by two squares each time.
b) What would the next shape look like?

## Problem Solving

LO:I can compare the area of rectilinear shapes

Look at the shapes below.

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| 1 |  |  | 2 |  |  |  | 3 |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  | 4 |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

a) Each shape increases in area by two squares each time.
b) The fourth shape will be made up of nine squares.

## Problem Solving

LO:I can compare the area of rectilinear shapes

## Activity 4:

Look at the shapes below.

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| 1 | 2 |  |  | 3 |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

a) What is happening in each step?
b) What would the next shape look like?

## Problem Solving

LO:I can compare the area of rectilinear shapes

## Activity 4:

Look at the shapes below.

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

a) Each shape increases in area by the value of its digit each time.
b) What would the next shape look like?

## Problem Solving

LO:I can compare the area of rectilinear shapes

## Activity 4:

Look at the shapes below.

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| 1 |  | 2 |  |  | 3 |  |  |  | 4 |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

a) Each shape increases in area by the value of its digit each time.
b) The fourth shape will be made up of ten squares.

## Problem Solving

LO:I can compare the area of rectilinear shapes

## Activity 5:

Look at the shapes below.

A has a smaller area than $B$, but has an area of more than 12 squares.
$D$ is a rectangle with an area greater than C , but an area less than 25 squares.

## Problem Solving

LO:I can compare the area of rectilinear shapes

## Activity 5:

Look at the shapes below.

A has a smaller area than $B$, but has an area of more than 12 squares.
$D$ is a rectangle with an area greater than $C$, but an area less than 25 squares.

## Problem Solving

LO:I can compare the area of rectilinear shapes

## Activity 5:

Look at the shapes below.

A has a smaller area than $B$, but has an area of more than 12 squares.
$D$ is a rectangle with an area greater than $C$, but an area less than 25 squares.

## Reasoning

LO:I can compare the area of rectilinear shapes

Is Astrobee's statement true or false?
Explain your answer.

## Reasoning

LO:I can compare the area of rectilinear shapes

Evaluation:
The right-hand shape is larger as it

|  | , |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | $\pm$ |  |  |  |
|  |  |  |  |  |  | is made up of whole squares.

Astrobee's statement is false. Both shapes share the same area of twelve squares. The left-hand shape is made up of eight whole squares and eight half squares. The right-hand shape is made up of three rows of four squares.
