Do you agree with Astrobee?

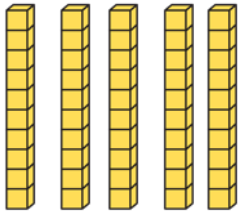

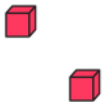

What's the same and what's different about the two place value charts?

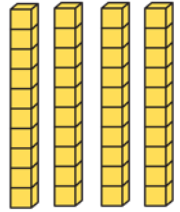

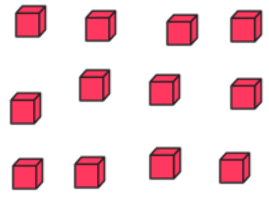

To be able to use place value charts

Evaluation:

The two place value charts show the same value.

tens	ones
	

tens	ones
	

Astrobee is correct - both place value charts show 52.

The top chart shows 5 tens + 2 ones, the bottom chart shows 4 tens + 12 ones.

To be able to use place value charts

Success criteria:

- ✓ I can use concrete, pictorial and abstract representations within place value charts to support my place value knowledge
- ✓ I can use reasoning to explain my responses when using concrete, pictorial and abstract representations within place value charts to support my place value knowledge
